

Happy Thanksgiving!

It's the last Thursday of November and it's time to feel thankful for all the things that make our life beautiful. People in other countries of the world, especially the United States of America and Canada, decided they should celebrate this day to show their gratefulness for the harvest of the year. Nowadays, they gather around the table with family and friends, enjoy a nice meal and remember all the great small things in their life.

That's what we did as well! We grabbed the chance to think about all those small but so important things that we are lucky to enjoy in our life and to feel thankful for them. And guess what! They are many: our health, our family and friends, our school, our pets, our toys and free time, peace and love and so many others that make our life "flourish" just like this tree did with our leaves. It looks like we are lucky happy people after all!
